

The AMAP commitment charter

This charter commits the person signing it to respect the principles of the AMAP managed by ENvertS. It is effective from **04/10/2022** to **24/01/2023**. ENvertS's AMAP is constituted of all the people who subscribed to at least one of contracts to buy products (these people can be any physical person attending the ENS, be it students or employees) and of the farmers.

The role of the AMAP is to:

- enable the delivery of products bearing either one of these labels: "Nature & Progrès", "Demeter", "Agriculture Biologique", or coming from sustainable agriculture, by providing a place for the delivery and nominating people in charge of it;
- ensure the life of the AMAP and the continuity of the relationship between the AMAP subscribers and the farmers;
- take in charge the administrative and financial management, and the renewal of the contracts.

I, the undersigned....., guarantee that I will respect the following commitments:

- ordering and paying my baskets in advance for the period covered by the contract, knowing that I am not bound to order products every week;
- pick up my order(s), when I made them, **every Tuesday between 5:30 and 6 :30 pm** (unless I am notified otherwise) at the campus I indicated when I ordered, **failing which it will be re-distributed**;
- volunteer to participate to at least two slots of distribution (one slot being 45 minutes long), separately or on the same distribution, during the period covered by the contract - only people preparing the aggregation are exempted of this participation;
- participate, when possible, to the proper functioning and to the life of the AMAP (by being present to the General Assembly and to the meetings regarding the AMAP, and completing the surveys punctually proposed)
- acknowledge the existence of the AMAP Solidarity Fund (CSA) and approve of its functioning;
- acknowledge the hazards of agriculture (bad weather, devastation...) and as an AMAP subscriber, accept the risks related to them.

The baskets are made by the farmers according to the available production.

Summary of the orders:

Products	Cheque order	Sum (€)	Number of cheques
Fruit	Le chant des coquelicots		
Bread and pastries	GAEC du levain		
Vegetable	Gontel
